Introduction

This guide is intended for authorized users of the Registry of Educational Personnel (REP) Application and other district staff members. This document provides guidance regarding the data required for the Personnel Skilled in Technology Supplemental Submission. This guide also provides definitions and general information about each data element as well as instructions for using the online data entry system.

Personnel Skilled in Technology

As a result of the *American Recovery and Reinvestment Act of 2009* (ARRA) the U.S. Department of Education (U.S. ED) requires the reporting of these data elements. These data are mandated by 34 Code of Federal Regulations (CFR) Part 76 and Elementary and Secondary Education Act (ESEA), Title II, Part D. The Michigan Department of Education received guidance from the U.S. ED related to the ARRA which requires all intermediate school districts (ISDs), local educational agencies (LEAs) and public school academies (PSAs) are required to submit data concerning instructional personnel skilled in technology.

Districts are required to report the number of staff members assessed in the use of technology and, of those, the number deemed skilled. This collection will require submission of data for the following three staff member groups only:

- Teachers
- Librarian/Media Specialists
- School Administrators

Michigan has teacher technology standards (7th Standard) included in the *Professional Standards for Michigan Teachers* (2008). However, Michigan does not require or provide a technology skill assessment for staff members. Assessment of technology skills can take multiple forms, including observation, portfolios, ISD/LEA/PSA-developed exams, commercially developed exams, completion of coursework, or other means. For example, if one staff member observes another staff member demonstrating his/her technology skills as a means of determining the level of skill he/she possesses, that observation could be considered an assessment.

In response to these requirements, CEPI and the Michigan Department of Education (MDE) have developed an online data entry process for district users to utilize when submitting these data via the REP Application. The online data entry screen will be available June 1 through June 30, 2009.

Instructions for the data submission are included within this document. After reviewing this document, if you have further questions about the data submission process, contact CEPI customer support at CEPI@michigan.gov. For the subject line of your message use the following: Personnel Skilled in Technology. Include your name, district code, district name, your telephone number, (including area code and extension), your e-mail address, and your specific questions in the body of your message.

For questions concerning the data requirement, please contact Bruce Umpstead (umpsteadb@michigan.gov), Ron Faulds (fauldsr@michigan.gov), or Barb Fardell (fardellb@michigan.gov) in the Office of Educational Technology and Data Coordination. You may also reach them by telephone at 517.335.2957.
